3 “EXPORT LICENSES REQUIRED FOR CRITICAL COMMOD-

5 “SEC. 11. Section 4 of the Export Administration Act
6 of 1969, as amended by sections 3, 4, 9, and 10 of this
7 Act, is further amended by adding at the end thereof the
8 following:

Amdt. No. 1758

1 “(j) (1) Effective only with respect to the 1974
2 through 1977 crops of wheat, feed grains, cotton, and soy-
3 beans, whenever the Secretary of Agriculture finds and
4 notifies the Secretary of Commerce that the combined do-
5 mestic requirements and export sales of any such commodity
6 threaten to reduce the carryover of such commodity at the
7 close of the marketing year for such commodity below the
8 level specified for such commodity in paragraph (4), he
9 shall designate such commodity as a “critical” commodity for
10 the current marketing year, and thereafter, during such
11 marketing year, no person may export any such commodity
12 from the United States without an export license issued by
13 the Secretary of Agriculture authorizing the export of such
14 commodity by such person.

15 “(2) The Secretary of Agriculture is directed to main-
16 tain a weekly projection of foreign sales and domestic
17 requirements in relation to available supplies for each desig-
18 nated critical commodity. Except for sales and other disposi-
19 tions made to friendly countries under the Agricultural
20 Trade Development and Assistance Act of 1954, as amended,
21 at any time that the projected carryover stocks for any
22 commodity in any marketing year fall below the level speci-
23 fied for such commodity in paragraph (4) the Commodity
24 Credit Corporation may not, so long as the stocks of such
25 “critical” commodity remain below such level, sell any

1 of its stocks of such commodity for export for less than
2 120 per centum of the weekly average cash price of the
3 commodity in Chicago, Kansas City, and Minneapolis mar-
4 kets in the immediately preceding week, except that in the
5 case of cotton, the minimum price at which such commodity
6 may be sold shall be 120 per centum of the weekly average
7 cash price in the designated spot markets reported by the
8 United States Department of Agriculture in the immediately
9 preceding week. None of the stocks of any commodity
10 designated as a critical commodity under this subsection
11 may be sold by the Commodity Credit Corporation to any
12 buyer for domestic utilization unless such buyer agrees, in
13 such manner as the Secretary of Agriculture may prescribe,
14 that any stocks of such commodity sold to him will not be
15 exported.

16 ““(3) Whenever the projected carryover stocks of
17 wheat, feed grains, cotton, or soybeans fall below the level
18 specified for such commodity in paragraph (4) —

19 ““(A) the Secretary of Agriculture is authorized
20 to initiate a 100 per centum validated export licensing
21 system with respect to such commodity if the President
22 determines the initiation of such system with respect
23 to such commodity is necessary^o to protect the United
24 States against a future shortage^o thereof or is necessary
25 to protect the economy of the United States. The Sec-

1 retary of Agriculture is also authorized to initiate, either
2 in conjunction with or independent of a 100 per centum
3 validated export licensing system, any reporting system
4 he deems appropriate with respect to any such com-
5 modity; and

6 “ (B) no quantity of such commodity may be ex-
7 ported to any foreign country in an amount that would
8 result in total export sales to such country (from the
9 United States) during such year in excess of 120 per
10 centum of the amount of export sales of such commodity
11 to such country (from the United States) in the pre-
12 ceding marketing year, unless the Secretary of Agri-
13 culture specifically approves the export of such quantity
14 to such country.

15 As used in this paragraph, the term “100 per centum vali-
16 dated export licensing system” means a licensing system
17 under which (i) the Secretary of Agriculture authorizes the
18 exportation of a quantity of wheat, feed grains, cotton, or
19 soybeans only when the application for a license to export
20 any such commodity is accompanied by a certified copy of a
21 contract for the export from the United States of a quantity
22 of such commodity equal to the quantity of such commodity
23 for which the export license is requested, and (ii) licenses
24 are issued, unless otherwise provided by the Secretary of
25 Agriculture, to cover exports anticipated for the current
26 month or the current and immediate succeeding month.

1 “(4) Notwithstanding any other provision of law,
2 effective only with respect to the 1974 through 1977 crops
3 of wheat, feed grains, cotton, and soybeans, the Commodity
4 Credit Corporation shall not sell any of its stocks of wheat,
5 corn, grain sorghum, barley, oats, or cotton, respectively, at
6 less than 135 per centum of the established price applicable
7 by law to the current crop of any such commodity, or any
8 of its stocks of soybeans at less than 150 per centum of the
9 current national average loan rate for such commodity,
10 adjusted (in the case of all such commodities) for such cur-
11 rent market differentials reflecting grade, location, and other
12 value factors as the Secretary determines appropriate, if the
13 Secretary determines that the sale of such commodity will
14 (A) cause the total estimated carryover of such commodity
15 at the end of the current marketing year for such commodity
16 to fall below six hundred million bushels in the case of wheat,
17 forty million tons (collectively) in the case of corn, grain
18 sorghum, barley, and oats, five million bales in the case of
19 cotton, or one hundred and fifty million bushels in the case of
20 soybeans, or (B) reduce the stocks of the Commodity Credit
21 Corporation below two hundred million bushels in the case of
22 wheat, fifteen million tons (collectively) in the case of corn,
23 grain sorghum, barley, and oats, one million five hundred
24 thousand bales in the case of cotton, or fifty million bushels
25 in the case of soybeans; and in no event may the Corporation

1 sell any of its stocks of any such commodity in any marketing
2 year at less than the established price applicable by law to
3 the current crop of any such commodity, adjusted for such
4 current market differentials reflecting grade, quality, location,
5 and other value factors as the Secretary determines appropriate plus reasonable carrying charges, whenever the total
6 estimated carryover of such commodity in such marketing
7 year is in excess of the amount specified for such commodity
8 in clause (A) above. The provisions of this paragraph shall
9 not apply to dispositions made to friendly foreign countries
10 under the Agricultural Trade Development and Assistance
11 Act of 1954.

12
13 ““(5) The Secretary of Agriculture is authorized, to the
14 maximum extent practicable, to administer the provisions of
15 this subsection through the services and personnel of the
16 Department of Commerce, and the Secretary of Commerce
17 shall cooperate with the Secretary of Agriculture in the
18 administration of this subsection and may perform, on a reimbursable basis, such services as the Secretary of Agriculture
19 may request.

20
21 ““(6) The Secretary of Agriculture is authorized to
22 issue such rules and regulations as he deems necessary to
23 provide for the effective administration of this subsection.

24 ““(7) In determining the quantity of carryover of any
25 commodity at the beginning of or during any crop-marketing

1 year and the quantity of any commodity owned by the Com-
2 modity Credit Corporation, there shall be included any quan-
3 tity of such commodity contained in the disaster reserve
4 inventory maintained under the provisions of section 813 of
